- simplifying the DM&M calculations
- making the DM&M equitable for all parishes
- easier review by Diocese of parish submissions
- eliminate ambiguities and errors
- enlighten parishes on DM&M and Diocesan support and programmes

Pre Synod meeting objectives:

Consultation

Information sharing

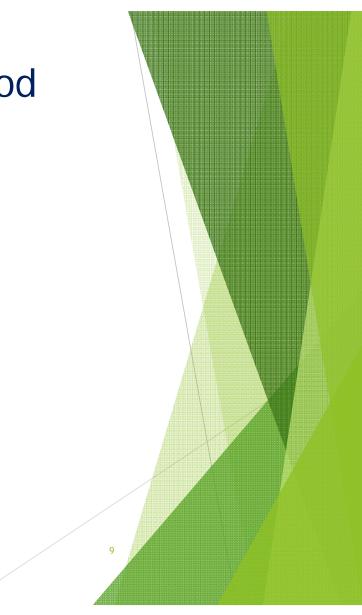

Forum for feedback

### Problems with the Present Method

- complicated calculation
- causes difficulties in many parishes
- not equitable to all parishes
- open to various interpretations
- ► 75% of submissions have errors

#### New Formula criteria

- Reduce deductions to only absolutely necessary costs for the parish to operate
- put all parishes on an equal footing
- simpler calculations
- have minimal impact on parishes
- reduce ambiguities and reporting errors
- revenue neutral for the Diocese

#### Methodology

- investigated previous suggested changes to DM&M formula changes and learn from the lessons
- there are an equal number of methods as there are Dioceses
- investigated other denominations' calculations and found again many ways to calculate the DM&M
- developed a methodology and produced data to determine impact on all parishes

#### Major Changes

Insurance costs deductible

Parishes on 1 year calculations can return to 3 year average (one time option)

12

Assistant Clergy and youth workers (licensed or un-licensed) deductible at 50%

#### Benefits; For the Parishes

- Equitable to all parishes
- Simplified calculations
- ► Is more transparent
- Helps to eliminate misunderstandings of calculation
- Reduces inequities between small/large parishes (people and property)

### Benefits; For the Diocese

Faster review and feedback to parishes
It is fair and transparent to all
Eliminates errors and interpretations differences
